Starmix Filtration Advantage

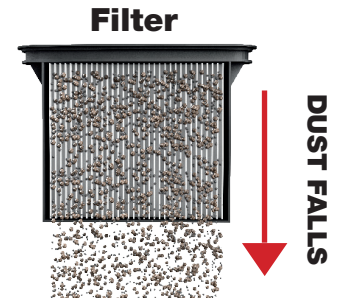

- Automatic Electromagnetic Filter Cleaning
- Long-Life HEPA Filters | 99.995% Filtration

Key Customer Applications:

Power Tool Bundle: Utilize with CS Unitec and other brands of power tools

Quality Upgrade: Current vacuum customers looking for quality upgrade to Starmix dust collection

General Maintenance: Quality performance for wet/dry maintenance applications

"Shaker-Style" Filter for Increased Airflow & Efficiency Compared to Reverse Flow Vacuums

Electromagnetic technology cleans the filter with up to 300x the force of gravity, that's over 30x the maximum force experienced by a fighter pilot!

<u>FEATURE</u>	<u>BENEFIT</u>	<u>COMPETITION</u>
Electromagnetic Filtration Cleaning	Debris falls directly to bottom of vacuum canister	Reverse Air flow recirculates the debris in the tank
Intuitive Auto Filtration Cleaning	Vacuum detects the time to clean the filters automatically	Will clean at 15-30 second intervals regardless of dust extraction conditions
2 HEPA Filter Cartridges with over 1,000 sq. in. total filter material	Greater filter surface area & cleaning efficiency	Lower-Quality parts lead to higher replacement costs

- **The Ultimate Vacuum** features iPulse technology to automatically clean the filters sequentially with no disruption in airflow
- Advantageous for heavy dust extraction levels or critical applications where dust **NEEDS** to be contained
- Put us to the "**Ultimate Test**," 30-day money back guarantee!
